

Sunoikisis Digital Classics, Summer 2026

28 April 2026

Tools and Environments for publishing Digital Scholarly Editions

Speakers:

Chiara Martignano

University of Padua

Roberto Rosselli Del Turco

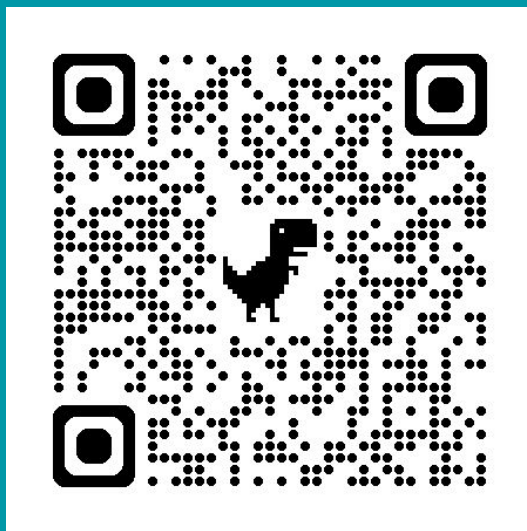

University of Turin

Table of contents

- Introduction
 - life cycle of a digital scholarly edition (DSE)
 - difference between production, publication and mixed tools
- Part 1: Publishing tools and environments
 - why is visualisation important in digital scholarly editing
 - aspects to consider to pick the right tool
 - most frequently adopted tools
 - resources to find tools
- Part 2: EVT
 - brief history with examples of digital editions that have used EVT
 - main features with a focus on EVT 3
- **Exercise**
- **Final remarks and discussion**

Introduction

The life cycle of a DSE and types of tools for digital philology

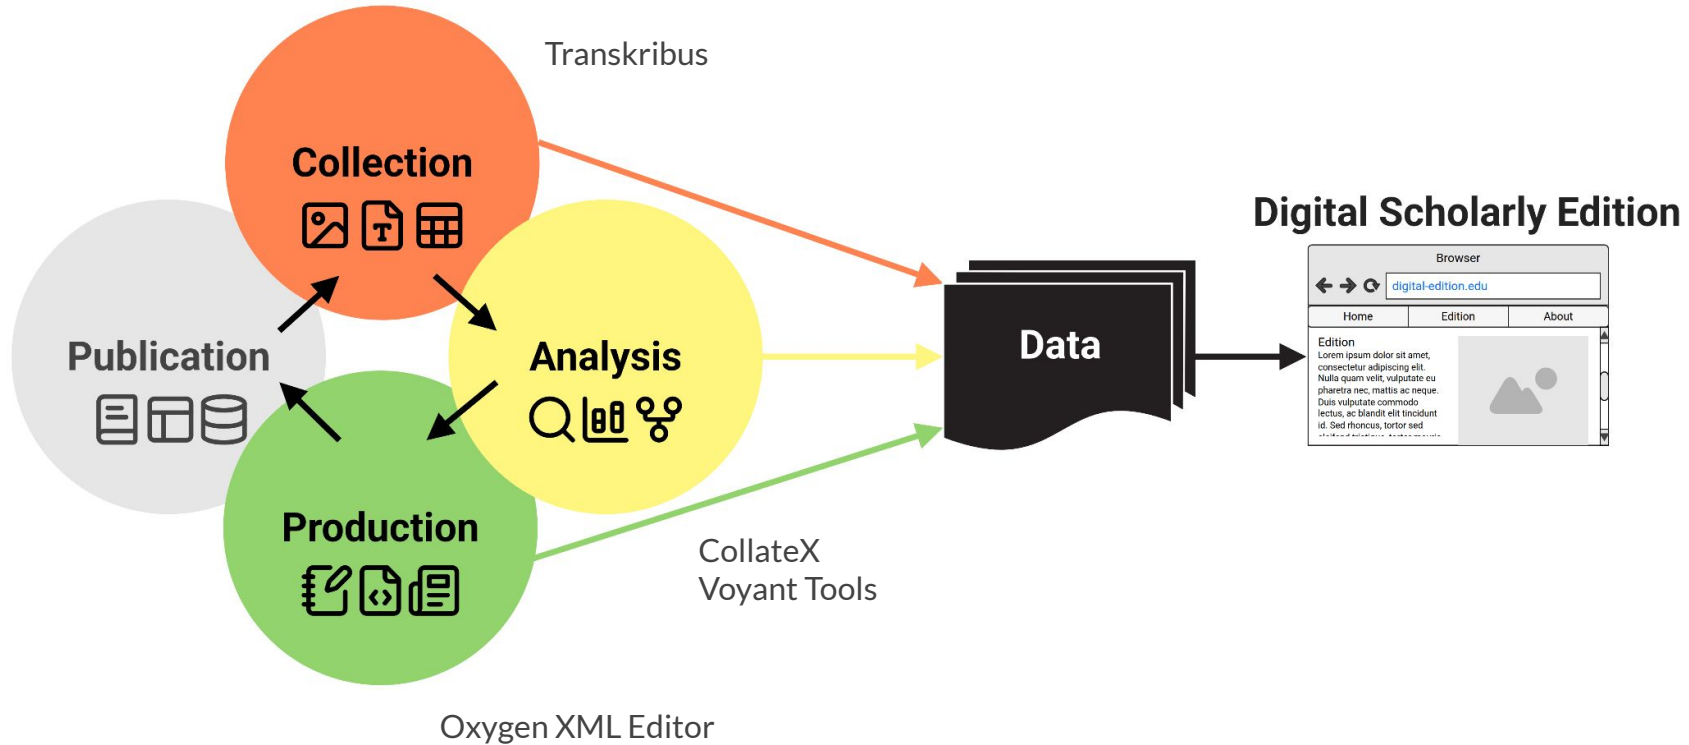

Four main steps for creating a DSE

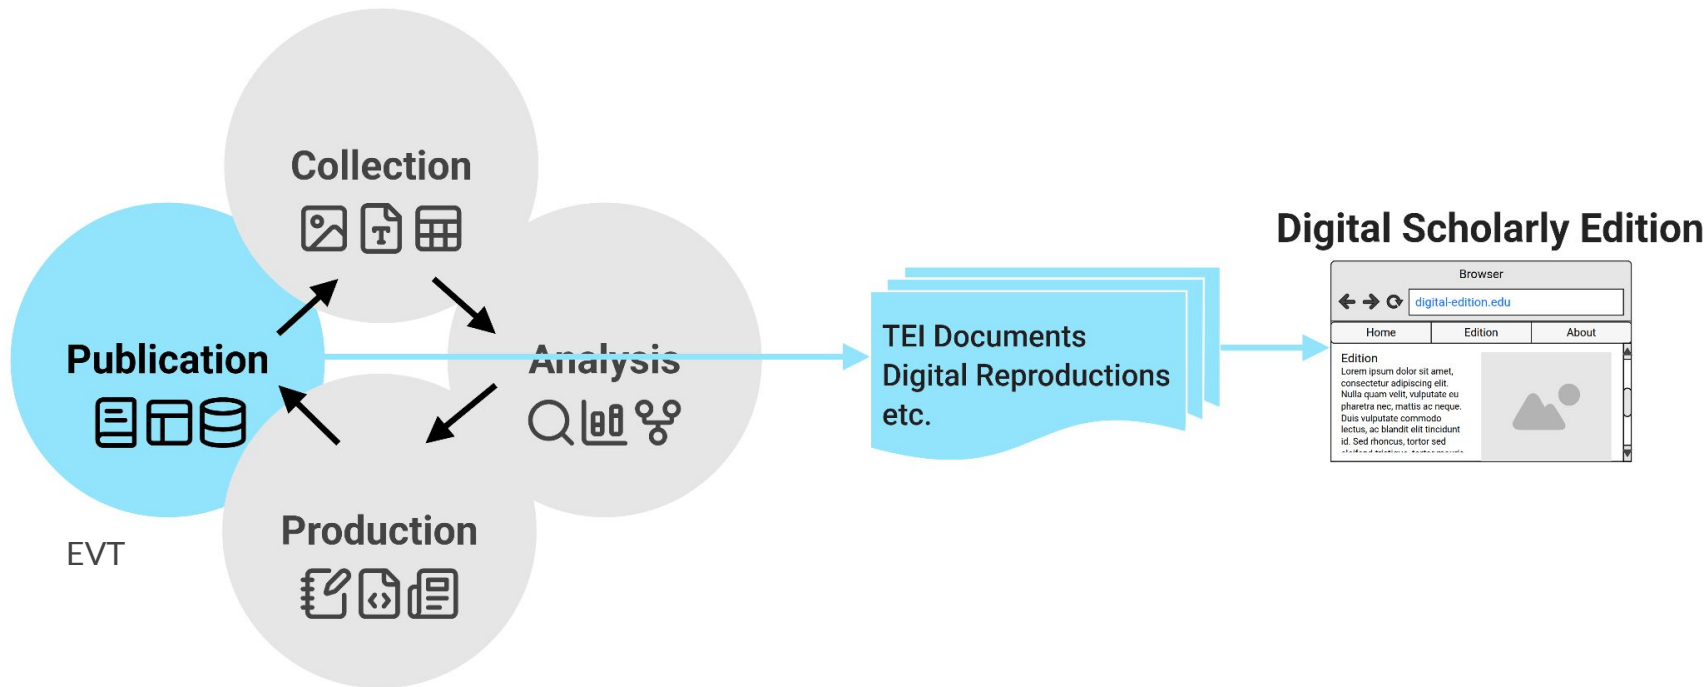

Iterative Process

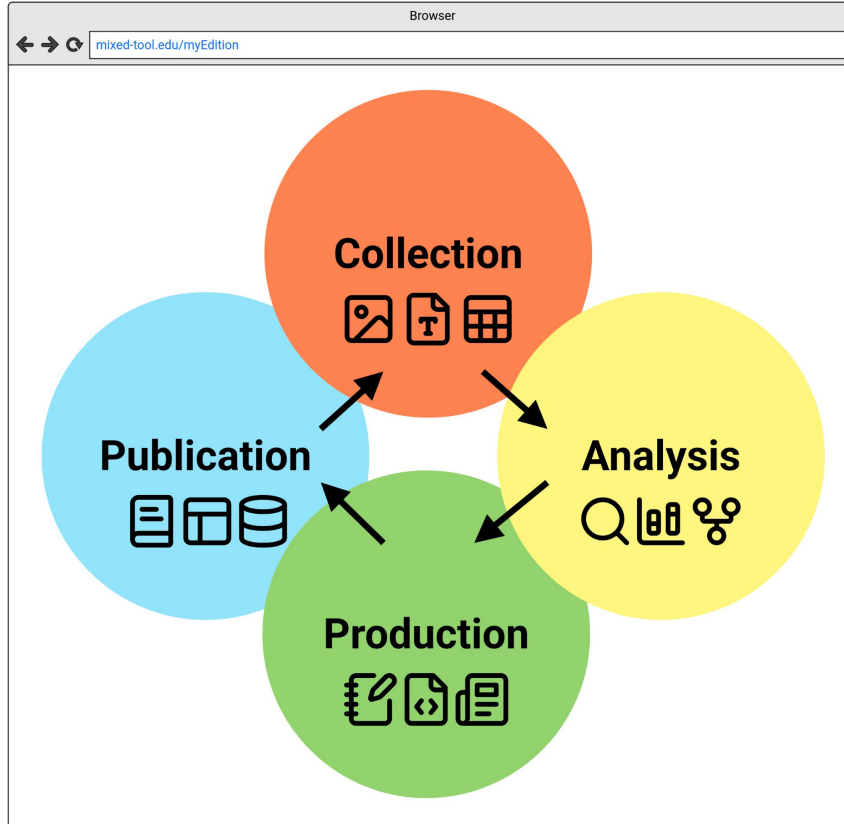

Production tools

Publication tools

Mixed tools

Simplified workflow:

- after publishing for the first time, if you revise your data, it is automatically updated also in the visualisation interface;
- no problems of formats incompatibility and conversion.

Higher costs and/or more set up complexity.

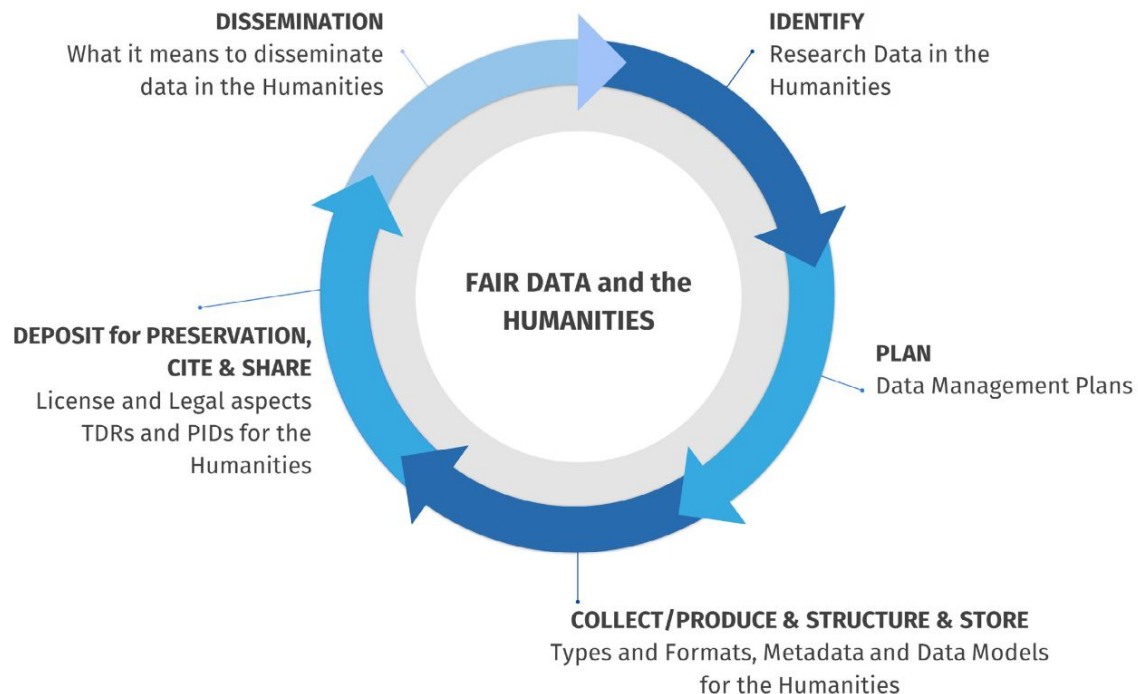

Transkribus Sites <https://www.transkribus.org/sites>

- easy to use
- built-in CMS and standard functionalities such as text-search
- suitable for diplomatic editions

The screenshot displays the Transkribus web interface. On the left, a thumbnail of a handwritten document is shown. The main area is divided into two panels. The top panel shows the document's title: "ASBNa_Banco_di_San_Giacomo_e_Vittoria_Giornale_di_cassa_m.17_1609 - Page 22". Below this, the document is displayed in two columns. The left column shows the original handwritten text, and the right column shows the digital transcription. The transcription is organized into a table with columns for the date, the transaction type, and the details of the transaction. The date is "1609 a 22 de agosto sabbato". The transactions are listed as follows:

transazione_senza_oggetto
A Cesare pinello ducati diece e per esso a Giovan domenico gallo per altritanti
A Fra Mattia de Napoli ducati otto e per esso a magnifico Felice de marino Fabricatore per le sue giornate servite alla fabrica per la nova Infermeria
A notare Giovan angelo de dato ducati centocinquantaquattro e per esso al dottor Cristofaro Martines per altritanti e per lui a Pietro delamora per altritanti
A bartolomeo e Marco antonio Zappale ducati sette e per essi a battista d'ambrosio per altritanti
A Fabritio abbate ducati quattro e per esso a Giovan battista abbate per altritanti
A li eredi de Giovanni Iacovo Noris e Giovan donato Correggio ducati diece e per essi a Francesco d'Antonio vitale per una di cambio de Ottavio Caracino e Giovanni astolfini de Lecce delli 11 corrente contanti dissero con Giovan battista persone e per lui a luciano clarito per altritanti
A Gioseppe de Sessa ducati diece e per esso a battista de Franco per altritanti
A Matteo de Franco ducati tre e per esso a Salvatore Masco per altritanti

A wider perspective and guidelines for creating **FAIR** DSEs

Bardi et al. (2026) **The ATLAS Whitebook and Guidelines**. Bologna: Associazione per l'Informatica Umanistica e le Culture Digitali – AIUCD, p. 203. ISBN 979-12-986188-0-0. DOI [10.6092/unibo/amsacta/8808](https://doi.org/10.6092/unibo/amsacta/8808). In: *Quaderni di Umanistica Digitale*.

Part 1

Publishing Tools and Environments

Why is visualisation important in a DSE project?

1

To see, check and share your data while you work on it iteratively (and collaboratively).

The screenshot displays the EUT Prototipo LOCI COMMUNES ALPHA interface. The main window is divided into two panes. The left pane shows a digital manuscript of Plato's *Symposium* (Book II), with the text in Latin. The right pane shows the corresponding Latin translation of the same text. The interface includes a top bar with the title 'EUT Prototipo LOCI COMMUNES ALPHA' and a search bar. The left pane has a sidebar with a list of sections (181, Select MsDesc) and a search bar. The right pane has a sidebar with a list of sections (181, Critical) and a search bar. The bottom of the interface features a navigation bar with a search bar and a set of navigation icons.

Left Pane (Manuscript):

Select MsDesc

Symposium

Virtutem si habes, omnia habes: at si vitium, ne te ipsum quidem.
Socrates cum quendam ex discipulis suis animadvertisset agri quidem esse studiosum, sed actionis negligentem: Heus tu, vide (inquit) ne dum agrum cicurare vis, animum tuum efferari sinas.
Quum autem intellexisset quendam ex familiaribus suis studioso curantem ut imago ipsi similis fieret: Tu (inquit) ut tibi similis lapis fieret curasti: at ipse ne lapidi similis has non curas.
Tantum virtuti appones, quantum de voluptatibus detraxeris.
Turpe est in alijs virtutes approbare, & in seipsis vitia habere.
Corporis curatores, sui autem negligentes, probrosos existimabat, et similes ijs qui domos quidem curant, sed domesticos negligunt.
Principia certissima esse oportet, actiones autem praeclassimas.
Illud te deo dignum efficit, si nihil illo indignum feceris.
Lente res agendas aggreditor tibi autem aggressus fueris, agito constanter.
Sic institue vitam quasi & paulum & diu sis victurus.
Lacon interrogatus, cur Sparta munita non esset: Noli (inquit) mentiri, munita est enim habitantium virtutibus.
Quum quidam ei ut probum obiceret, quod in loca impura intraret: Etiam sol (inquit) intrat, nec contaminatur.
Bonos viros um reliquias tempus non abolet, sed etiam defunctis eis virtus relictur.
Multi mali diuites sunt, boni autem pauperes.
Sed nos cum illorum diuitijs virtutem
Nolimus mutare: quoniam haec semper firma est:
Pecunias autem hominum alias alius habet.
Pietas colenda est, cuius optima consulenda, voluptas vincenda, nihil per vim gerendum, populi inimicus pro hoste habendus, ferui dum etri sunt, non puniendi: eis, cui enim ipse ebrius videberis.
Lycurgus legislator? alidum esse dignumque cui debitum credas, in opibus: at Lycurgus fide dignum, in moribus suum esse dicebat.
Videm voluptatem, corpus, pecuniam, & deum amari, fieri nullo modo potest: nam qui voluptates amat, idem & corpus amet necesse est: qui corpus amat, idem continuo & pecuniam: qui autem pecuniam, idem necessario iniustus est: at iniustus, in deum quidem impius, in homines iniustus est.
Omnia ista contemno, quibus & corpore solutus non indigebis: quibus autem ego his tum temporis, ad ea tibi laboranti Deum auxilium precor.
Omnes homines imbecillitate naturae vitio, exiguum quoddam universi temporis momentum in vita durante, reliquum vero totum spacium occupati morte latent. Et illa sane, qui dum uisere praetari nihil gesserant, eodem cum corpore obitu omnia perierunt: qui uero per uirtutem sibi gloriam conciliant, illorum actiones omnibus saeculis diuinissimo Historiae sermone commemorantur.
Virum bonum quae sentit, uerbisque facit, opere ostendere decet.
Bonum officium non faciunt, exempla praebent peccare uolentibus.
Bonos viros dei quendam partem habere, Aristoteles dicit: dei enim est, quae uelle, Histia philosophus

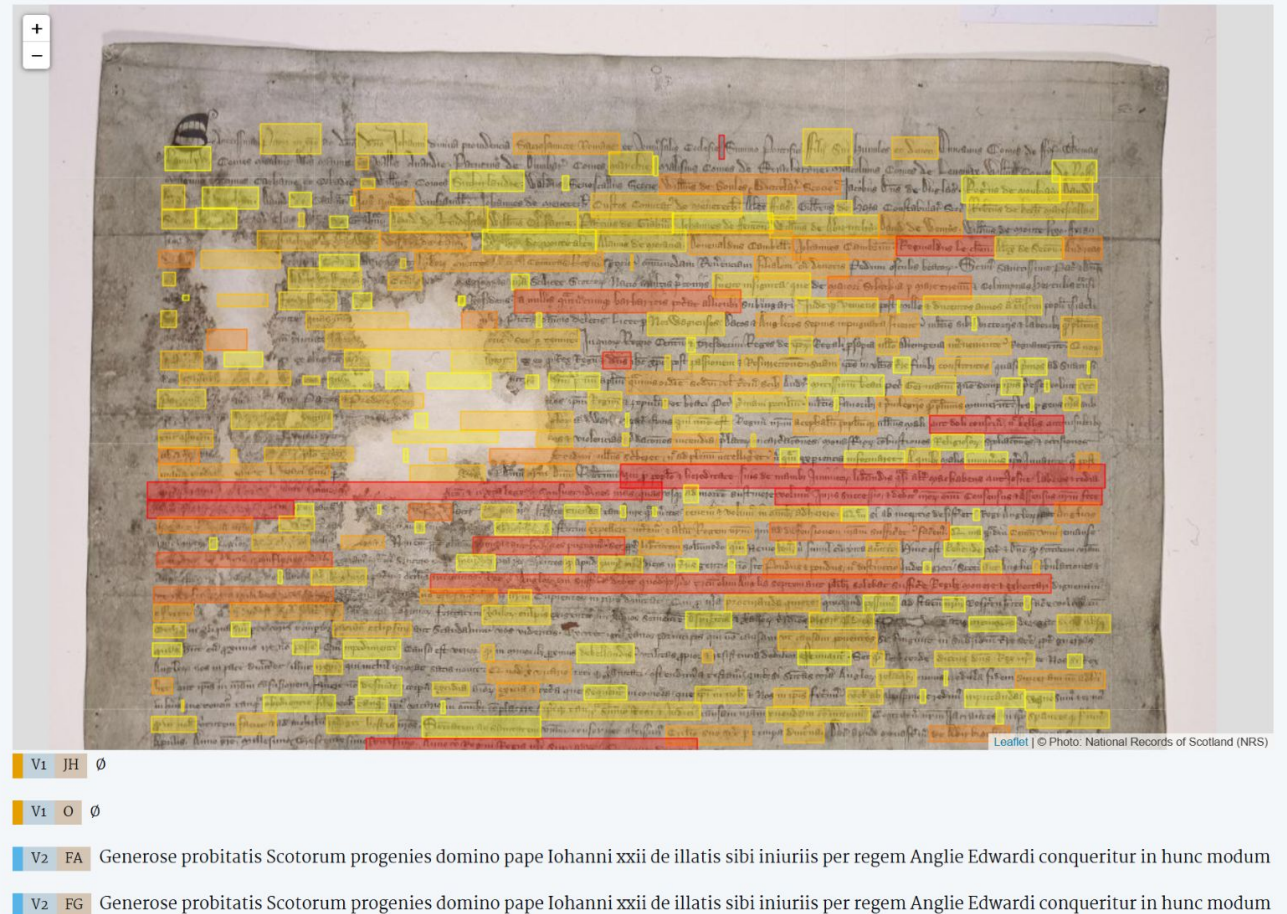

Right Pane (Translation):

Kalīla wa-Dimna Edition (v.0.6.0)

<https://kalila-and-dimna.fu-berlin.de/>

What the ideal tool should be like

- Easy to use
 - provides comprehensive documentation, tutorials, and users support
 - has a wide users community
- Open
 - usable and accessible for all users
 - open access or free plan
- Robust and durable
 - based on standard languages and technologies
 - compatible with XML/TEI and other standard formats most commonly used in the DH
 - actively maintained by its developers
- Customisable
 - open source
 - easily customisable in terms of features and GUI
 - easily integrated with APIs and external libraries

TEIGarage <https://teigarage.tei-c.org/>

- free official TEI tool
- easily converts documents from the TEI to many different formats, including xHTML, and vice versa
- suitable for all types of editions
- perfect as a simple solution for static digital editions or as a starting point for more complex online visualisations

1. DE VITAE VIRTUTE ET VITIO, SERMO I.

Matth. 7. ANGUSTA via et arcta quae ad vitam deducit.

Rom. 12. Noli vinci a malo, sed per bonum vince malum.

Solomonis. Virtutis quidem signum nullum ostendere possumus: in vitio autem consumpti sumus.

Eiusdem. Vide ne te seducant impii, nec per viam cum illis gradiaris: sed retrahe pedem tuum a semitis illorum, quod pedes ipsorum ad vitia currant.

Qui rem aliquam contemnit, contemnetur ab ipsa.

Quemadmodum uva acerba nocet dentibus, et fumus oculis: sic iniquitas et legis violatio violatoribus.

Sirach. 7. Noli mala facere, et te mala non apprehendent.

Qui prava scelera admittit, in ipsa includetur, nec intelligit unde ipsi accidunt.

Basilii. Ut ignis sua natura illuminat, et unguentum odorem emittit: sic etiam bonas actiones necessario sequitur aliquod emolumentum.

Virtutis exercitatio pretiosa est habenti possessio, et iucundissimum congrementibus spectaculum.

Theologi. Non solum praeclara actio nobiles efficit, sed etiam vitium improborum gloriam superans.

Rara est boni possessio atque difficilis, etiamsi in eo sit quod multum attrahat et invitet.

Natura vitium promptum est, et magnus ad id quod pessimum est concursus fit, ut torrens per prona ruit, et stipulae ad scintillam et ventum facile accenduntur ac inflammantur, et a sua ipsa prole, videlicet flammis, consumuntur.

THE MARK ON THE WALL

Perhaps it was the middle of January in the present year that I first looked up and saw the mark on the wall. In order to fix a date it is necessary to remember what one saw. So now I think of the fire; the steady film of yellow light upon the page of my book; the three chrysanthemums in the round glass bowl on the mantelpiece. Yes, it must have been the winter time, and we had just finished our tea, for I remember that I was smoking a cigarette when I looked up and saw the mark on the wall for the first time. I looked up through the smoke of my cigarette and my eye lodged for a moment upon the burning coals, and that old fancy of the crimson flag flapping from the castle tower came into my mind, and I thought of the cavalcade of red knights riding up the side of the black rock. Rather to my relief the sight of the mark interrupted the fancy, for it is an old fancy, an automatic fancy, made as a child perhaps. The mark was a small round mark, black upon the white wall, about six or seven inches above the mantelpiece.

How readily our thoughts swarm upon a new object, lifting it a little way, as ants carry a blade of straw so feverishly, and then leave it. . . . If that mark was made by a nail, it can't have been for a picture, it must have been for a miniature—the miniature of a lady with white powdered curls, powder-dusted cheeks, and lips like red carnations. A fraud of course, for the people who had this house before us would have chosen pictures in that way—an old picture for an old room. That is the sort of people they were—very interesting people, and I think of them so often, in such queer places, because one will never see them again, never know what happened next. She wore a flannel dog collar round her throat, and he drew posters for an oatmeal company, and they wanted to leave this house because they wanted to change their style of furniture, so he said, and

Good practices

- During the planning phase, ask yourself:
 - What are the materials that form the basis of the editorial work?
 - What are my scientific objectives?
 - Are there tools that already meet my requirements?
 - What funds and resources do I have available?
 - Which aspects do I prefer to invest in?
- Keep **FAIR principles** in mind from the outset (<https://dh-atlas.github.io/guidelines/dse.html>).
 - How can I best enhance and share my data so that it can also be used by other scholars?

Part 2: Edition Visualization Technology (EVT)

The EVT project - Edition Visualization Technology

- born as the browser component of the **Digital Vercelli Book edition project**
 - the software tools then available were too limited or complicated, or proprietary, or tied to a specific OS, or a mix of all these things
- basic needs:
 - a viewer for ms images with TEI diplomatic transcription, image-text linking, two edition levels, text search
 - simple to use and deploy, Web standards-compliant
- designed from the start to be a **modular tool**, so that it could **evolve in a general purpose tool** useful for other projects
- this has proved to be a good idea since **new features have been implemented thanks to many collaborations**

EVT main features

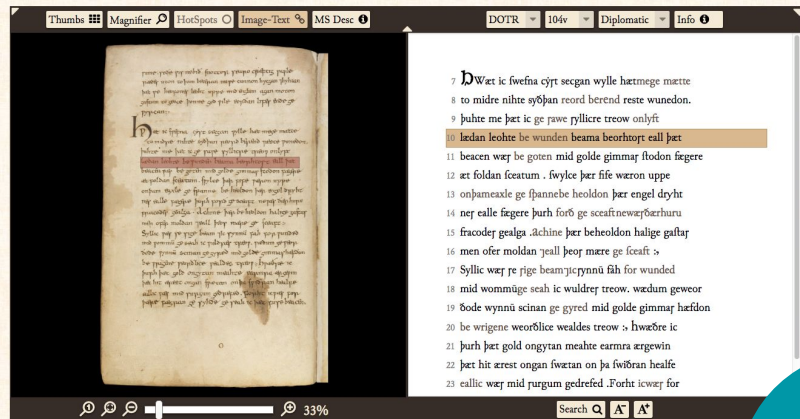

- distributed as ***open source software***: you're free to use and modify it
- aiming at covering the **most common needs for TEI XML-based editions**
 - digital facsimile
 - diplomatic / interpretative edition together with “digital twin”
 - critical edition
- rich functionality
 - image zoom, miniature navigation, manuscript quire structure etc.
 - text search, named entities support, lists of specific elements etc.
- **using Web standards** (HTML 5, CSS, JavaScript) for long term access
- highly **flexible** and **configurable**

User-friendly by design

- easy to use for the editor:
 - conceptual **separation between data and software**: you work on the encoding without having to worry about the viewer
 - **configurable layout**: the editor decides which functionality will be visible and available in the published edition
 - **automatic operation**: once configured and data is in the appropriate folders, EVT produces the Web edition automatically
 - **client only**: no need to install (and maintain!) server side software, just copy the EVT folder on the Web and the edition is ready
- easy to use for the reader:
 - **clean layout**, effective handling of the available screen space
 - **easy navigation** by means of the available views

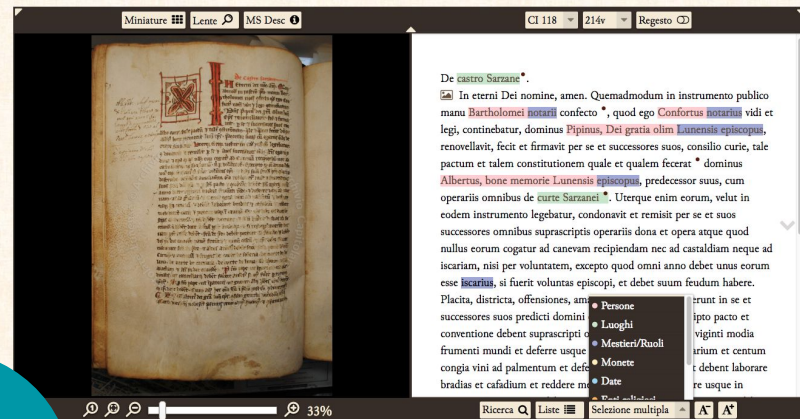

Current development status

- over time (2013 → 2026) three version of EVT have been developed:
 - **EVT 1:** diplomatic editions (or single witness critical editions) support, based on XSLT 2 and web technologies (December 2019 final EVT 1.3 version published)
 - **EVT 2:** a complete “reboot” of the source code based on the MVC design pattern and on the **AngularJS** framework ([final beta 2.1](#) published in January 2026)
 - **EVT 3:** new version based on the **Angular** framework (first beta released October 2024)
- why rewriting the source code periodically?
 - the initial XSLT 2-based framework was only suitable for the basic needs of a digital facsimile with corresponding diplomatic / interpretative edition → code rewrite
 - the move from AngularJS to Angular was dictated by Google → code migration
 - we need flexibility but also long term maintenance, therefore a suitable development framework: the MVVM design pattern is perfect under this regard

Cap. I.4 Capitulum ^a de subiecto logicae ^b

Impossibile est ^aanimum moveri^c ab uno solo intellectu ad credendum aliquid. Hic enim intellectus non est iudicium faciendi^d fidem essendi^e rem^f vel non essendi^g. Si enim fides esset, licet intellectus poneret rem esse vel^h non esse. Tunc ipse intellectusⁱ non valeret^j ad faciendum ullam^k fidem ullomodo. Quod enim facit fidem causa est^l fidei, sed impossibile est ^maliquid^m esseⁿ causam^{op} alterius sive habeat^q esse, sive non. Intellectus^r autem^s saepe habetur ex uno solo verbo. • Si autem unum^t non sufficit ^uad ^vintelligendum illud esse, vel non esse, in essentia sua, aut^w dispositione, nec^x facit^y fidem de alio^z. Cum vero addideris intellectui^{aa} esse vel non esse, iam addidisti^{ab} ei ^{ac}alium^{adac} intellectum •, sicut postea declarabitur ^{af}suo loco. Hoc autem, scilicet ^{ag}ex^{as} uno verbo intelligere, in^{ah} paucis contingit, et praeter^{ai} hoc in plerisque est^{aj} ^{ak}diminutum et malum. Quod^{al} autem ^{am}in plerisque dat intelligi^{an} et credere sunt^{aoap} intellectus^{aq} compositi. Omne autem^{ar} compositum componitur ex multis et inter multa sunt una. Ergo in omni composito sunt una^{as}. Unum autem in omni composito vocatur «simplex», et quia eius^{at} quod componitur ex multis ^{au}impossibile est scri^{av} naturam^{aw} ignoratis eius simplicibus, ideo convenientius est prius cognoscere simplices quam compositos. ^{ax}Cognitio autem^{ay} simplicium^{az} fit duobus modis, quia aut cognoscuntur secundum^{ba} hoc^{bb} quod apti sunt^{bcdbce} ut ex eis fiat^{bf} compositio^{bg} praedicta^{bh}, aut cognoscuntur secundum^{bi} hoc quod sunt^{bj} naturae et res^{bk} quibus accidit hic intellectus, ad similitudinem domus, quae componitur ex lignis et aliis, compositor cuius opus est cognoscere simplicia domus, scilicet ligna et lateres et lutum, sed ligna et lateres et lutum habent dispositiones ^{bl}propter quas^{bm} fiunt apta domui, et eius constructioni, et alias dispositiones praeter has, sicut hoc quod ligna sunt haec^{bn} substantiae in qua fuit anima vegetabilis aut quod natura eorum est calida aut frigida, aut quod comparatio eorum inter ea quae sunt est talis vel talis. Hoc autem scire non est necesse artificii domorum, sed an trabes sit mollis vel dura, aut^{bo} sit^{bbpq} sana vel putrida aut huiusmodi, necesse est scire domorum artificii. Similiter est doctrina logica: non enim considerat incomplexa harum rerum^{br} secundum quod sunt alicuius duorum modorum esse, scilicet quod est in his sensibilibus^{bs} aut in intellectu, nec etiam in

Poesie dell'adolescenza

1 Ma spesso tu sedevi ~~grave in volto,~~
al tuo studio sordo; ~~in me raccolto,~~
ed io in un canto udivo ~~il tuo~~
~~il tuo~~ un desan
le tue dita ~~rendevano~~ la canzone
dell'amor, della vita;
e s'accendeva i me la visione
d'una pace infinita.

0 uno strano presagio il cor m'empiva,
un'ebbrezza profonda;
ed ecco sorridendo a noi veniva
una signora bionda;
una bella signora, di cui gli anni
già volgevano a sera;
l'era buona e severa,
che ti celava del suo cor gli affanni;
ch'era tua madre!... Aldo, ~~il tuo cor vicina~~
d'ora, quella ~~bionda~~ signora;
~~nei sogni di primizia~~
~~l'ammangiava ancora~~
~~ella~~
Come tutto mutò! Come la vita
diversa oggi m'appare!
Quante immagini care
m'hanno, fuggendo, l'anima impraurito;
quanta delizia, quanta ingenua fede
c'ha in brevora lasciato;
~~come dell'infanzia tua coll'immagine~~

di tue dita il lavoro.

EVT 3: accessibility and inclusivity

The screenshot displays the EVT 3 interface, which is designed for accessibility and inclusivity. It features a central panel showing a digital edition of a handwritten manuscript, with the text "Poesie dell'adolescenza" and "Ma spesso tu sedevi grave in volto, ed io in un canto udivo, in me raccolto, di tua ditta lavoretti il tuo dolce lavoro." The interface includes a "Color contrast checker" on the left, which shows a contrast ratio of 21.00:1, indicating high contrast. The right panel displays a list of text elements, including "Poesie dell'adolescenza" and "Ma spesso tu sedevi grave in volto, ed io in un canto udivo, in me raccolto, di tua ditta lavoretti il tuo dolce lavoro." The interface also includes a "Sync text with image" button and a "Select McDev" dropdown menu.

Themes to improve visualisation for visually impaired people

EVT 3: double-end-point attachment method

Coming soon in EVT 3 beta2!

The screenshot displays the Lucullus DEPA BETA web interface. The main text area on the left contains a Latin passage with various annotations (superscripts and subscripts) indicating textual variants or scholarly notes. The interface includes a top navigation bar with 'EVT' and 'Lucullus DEPA BETA' labels, and a right sidebar with 'Errors' and document icons. Below the main text, there are search and selection tools. The right sidebar is divided into sections for variant readings, such as 'b L.]', 'c optimumum]', and 'd artium]', each showing different manuscript readings and their associated XML data. The XML data for 'd artium]' is visible at the bottom of the sidebar.

Future features of EVT 3

User annotation and work area

The screenshot displays the 'My Digital Edition' interface. On the left, a text editor shows a Latin document with a search bar at the bottom. The central sidebar contains a 'CriticalApparatus' section. On the right, a 'Pinboard' window is open, showing a list of annotations. The first annotation is 'De castro Sarzane in inchiostro' with a date of 'Novus [10/24/20]'. A context menu is visible over the text, offering 'Annotate' and 'Highlight' options. The bottom of the interface includes a 'Filter pins' search bar and navigation icons.

file_config.json is the main configuration file. Here you have to include the path to the edition.
Two different files are designed for configuring the edition and the UI respectively.

Edition configuration

The most relevant aspects that need to be configured are:

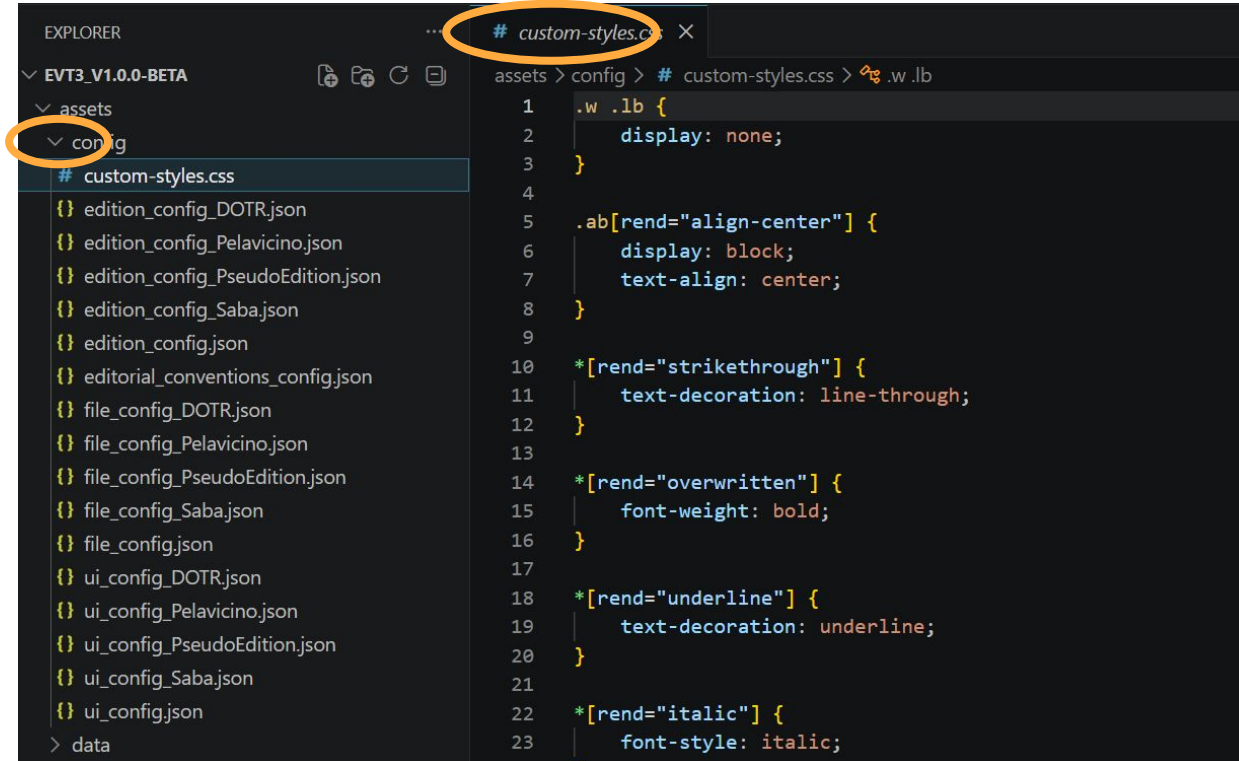

- edition title
- available edition levels: diplomatic, interpretative, critical, changes view
- allow users to download XML file
- named entities lists and items (people, places, organisations, relations, events)
- default edition
- default viewmode

UI configuration

The most relevant aspects that need to be configured are:

- available view modes (image-image, image only, reading text, image text, text text, collation, text sources, text versions, documental)
- bottom navigation bar
- theme (classic, modern, neutral)
- localisation and available languages
- bibliographic styles for bibliography

Adding custom styles

to the corresponding

ch CSS rules to them in
